

List of Volumes comprising this Environmental Impact Statement

- | | |
|-----------------|--|
| Volume 1 | Non-Technical Summary of the Environmental Impact Statement |
| Volume 2 | Environmental Impact Statement - Main Text |
| Volume 3 | Figures |

Acknowledgements

This Environmental Impact Statement has been prepared with inputs from all of the following team members:

Roughan & O'Donovan – AECOM Alliance

Team Leaders and Statement Authors

Kildare National Roads Office

Scheme Designers and Overall Project Management

EirEco Environmental Consultants

Ecology

AWN Consulting Ltd.

Noise and Vibration and Air Quality and Climate

Cunnane Stratton Reynolds

Landscape and Visual Assessment

Minerex Environmental Ltd.

Hydrogeology

John Bligh & Associates

Agronomy and Material Assets

Irish Archaeological Consultancy Ltd.

Archaeology, Architectural and Cultural Heritage

TABLE OF CONTENTS – VOLUME 2

Non Technical Summary of the Environmental Statement

Part I

Background Information and General Description

Chapter 1	Introduction	
1.1	General	1/1
1.2	EIS Study Team	1/2
1.3	Requirement for Environmental Impact Statement	1/2
1.4	EIA Guidelines	1/5
1.5	Related Schemes.....	1/6
1.6	Consultation	1/6
1.7	Difficulties Encountered.....	1/10
1.8	What Happens Next	1/10
Chapter 2	Planning and Policy Context	
2.1	Introduction and Overview.....	2/1
2.2	Planning Policy Context	2/4
2.3	Strategic and National Planning Policy	2/4
2.4	Regional Planning Policy.....	2/10
2.5	County and Local Planning Policy	2/15
2.6	Conclusion	2/23
Chapter 3	Need for the Proposed Road Development	
3.1	Introduction	3/1
3.2	Overview of the Scheme	3/1
3.3	Current Situation	3/3
3.4	Addressing Current Issues and Deficiencies	3/5
3.5	Scope, Constraints and Interfaces.....	3/17
3.6	Scheme Objectives	3/18
3.7	Conclusions.....	3/19
Chapter 4	Description of the Proposed Road Development	
4.1	Description of the Proposed Road Development	4/1
4.2	Design Standards.....	4/6
4.3	Utilities	4/17
4.4	Construction Phase	4/19
Chapter 5	Alternatives Considered	
5.1	Legislative Requirements	5/1
5.2	Background.....	5/1
5.3	Motorway Capacity Options Considered.....	5/2
5.4	Junction 10 Newhall Interchange Capacity Enhancement Options	5/5
5.5	Selection of Preferred Options	5/14
Chapter 6	Traffic Analysis	
6.1	Introduction.....	6/1
6.2	Data Collection	6/1

6.3	Base Year Traffic Models (2012).....	6/8
6.4	Future Year Traffic Models (2015 & 2030)	6/9
6.5	Scheme Impacts	6/10
6.6	Conclusions	6/17

Part II

Likely Significant Environmental Effects & Proposed Mitigation Measures

Chapter 7	Ecology	
7.1	Introduction	7/1
7.2	Methodology.....	7/1
7.3	Receiving Environment	7/2
7.4	Evaluation	7/13
7.5	Impact of the Proposed Development.....	7/14
7.6	Mitigation Measures	7/17
7.7	References.....	7/20
Chapter 8	Hydrogeology	
8.1	Introduction	8/1
8.2	Methodology.....	8/1
8.3	Impact Assessment Methodology	8/3
8.4	Existing Environment.....	8/3
8.5	Description & Assessment of Impacts	8/8
8.6	Mitigation Measures & Environmental Commitments.....	8/11
8.7	Residual Impacts.....	8/12
Chapter 9	Hydrology	
9.1	Introduction	9/1
9.2	Methodology.....	9/1
9.3	Impact Assessment Methodology	9/3
9.4	Existing Environment.....	9/3
9.5	Predicted Impacts	9/5
9.6	Mitigation Measures	9/8
9.7	Residual Impacts.....	9/10
Chapter 10	Soils and Geology	
10.1	Introduction	10/1
10.2	Methodology.....	10/1
10.3	Impact Assessment Methodology	10/2
10.4	Existing Environment.....	10/5
10.5	Impacts of Development on Existing Environment.....	10/7
10.6	Mitigation Measures Recommended to Protect Environment	10/9
10.7	Residual Impacts.....	10/9
10.8	References.....	10/10
Chapter 11	Material Assets	
11.1	Introduction	11/1
11.2	Methodology.....	11/1
11.3	Impact of M7 Widening.....	11/2
11.4	Agricultural Property Impacts – Newhall Interchange and Attenuation Ponds.....	11/4
11.5	Non-Agricultural Property Impacts	11/15
11.6	Difficulties Encountered.....	11/20

Chapter 12	Human Beings	
12.1	Introduction	12/1
12.2	Methodology.....	12/2
12.3	Impact Categories	12/2
12.4	Receiving Environment	12/5
12.5	Predicted Impacts	12/9
12.6	Mitigation Measures	12/14
12.7	“Do Nothing” Impact	12/15
12.8	Conclusions.....	12/15
Chapter 13	Archaeological, Architecture and Cultural Heritage	
13.1	Introduction	13/1
13.2	Methodology.....	13/3
13.3	Results and Analysis - Archaeology	13/5
13.4	Results and Analysis - Architecture	13/17
13.5	Results and Analysis - Cultural Heritage	13/24
13.6	Assessment of Potential Impacts.....	13/26
13.7	Recommendations and Mitigation Measures	13/29
13.8	References.....	13/29
Chapter 14	Landscape and Visual Analysis	
14.1	Introduction	14/1
14.2	Methodology.....	14/1
14.3	Description of the Proposed Scheme	14/3
14.4	Description of the Receiving Environment	14/5
14.5	Policy Context – Kildare County Development Plan 2011-2017	14/12
14.6	Proposed Landscape and Visual Impact Mitigation	14/15
14.7	Predicted Landscape Impact – M7 Widening.....	14/17
14.8	Predicted Landscape Impact – Newhall Interchange.....	14/18
14.9	Predicted Visual Impacts – M7 Widening	14/20
14.10	Predicted Visual Impacts – Newhall Interchange.....	14/32
14.11	Conclusions.....	14/45
Chapter 15	Noise and Vibration	
15.1	Introduction	15/1
15.2	Methodology.....	15/1
15.3	Description of the Existing Conditions	15/3
15.4	Assessment of Operational Noise	15/10
15.5	Mitigation Measures – Operational Phase.....	15/17
15.6	Residual Impacts – Operational Phase.....	15/18
15.7	Assessment of Construction Noise	15/19
15.8	Vibration.....	15/22
Chapter 16	Air Quality and Climate	
16.1	Introduction and Methodology	16/1
16.2	Description of Existing Conditions	16/5
16.3	Characteristics of the Proposed Scheme.....	16/9
16.4	Predicted Impacts of the Proposed Scheme.....	16/9
16.5	Screening Assessment of R445 in Naas	16/17
16.6	Air Quality Impacts on Sensitive Ecosystems	16/17
16.7	Operational Phase - Regional Air Quality	16/21
16.8	Operational Phase – Climate.....	16/21

16.9	“Do Nothing” Scenario – Local Air Quality	16/21
16.10	“Do-Nothing” Scenario - Regional Air Quality	16/22
16.11	“Do-Nothing” Scenario – Climate	16/22
16.12	Worst Case Scenario	16/22
16.13	Remedial and Mitigation Measures	16/22
16.14	Residual Impacts of the Proposed Scheme	16/24
16.15	Monitoring	16/24
16.16	References.....	16/24
Chapter 17	Resource and Waste Management	
17.1	Introduction	17/1
17.2	Guidance.....	17/1
17.3	Scheme Description	17/2
17.4	References.....	17/4
17.5	Mitigation Measures - Proposals for Minimisation, Reuse, Recycling and Management Waste	17/4
17.6	Assignment of Responsibilities	17/8
17.7	Training	17/9
17.8	Waste Records.....	17/9
17.9	C&D Waste Plan Summary	17/9
Chapter 18	Assessment of Potential Cumulative Impacts	
18.1	Introduction	18/1
18.2	Potential Cumulative Impacts on Sensitive Receptors.....	18/1
18.3	M7 Osberstown Interchange and R407 Sallins Bypass Scheme	18/2
18.4	Planning and Policy Context.....	18/3
18.5	Traffic Analysis.....	18/4
18.6	Ecology	18/6
18.7	Hydrogeology	18/6
18.8	Hydrology.....	18/7
18.9	Soils and Geology	18/7
18.10	Material Assets.....	18/7
18.11	Human Beings.....	18/8
18.12	Archaeology, Architecture and Cultural Heritage	18/9
18.13	Landscape and Visual Impact	18/9
18.14	Noise and Vibration	18/10
18.15	Air Quality and Climate.....	18/10
18.16	Conclusion	18/12
Chapter 19	Interrelationships and Interactions.....	19/1
Chapter 20	Mitigation Measures	
20.1	General	20/1
20.2	Traffic.....	20/1
20.3	Mitigation Measures for Ecology.....	20/1
20.4	Mitigation Measures for Hydrogeology	20/4
20.5	Mitigation Measures for Hydrology	20/5
20.6	Mitigation Measures for Soils and Geology	20/7
20.7	Mitigation Measures for Material Assets	20/8
20.8	Mitigation Measures for Human Beings.....	20/9

20.9	Mitigation Measures for Archaeology, Architecture and Cultural Heritage	20/9
20.10	Mitigation Measures for Landscape and Visual	20/10
20.11	Mitigation Measures for Noise and Vibration	20/12
20.12	Mitigation Measures for Air Quality and Climate	20/13
20.13	Resource and Waste Management	20/14
