PLANNING & STRATEGIC DEVELOPMENT DEPARTMENT

Section 5 referral & declaration on development & exempted development

Planning & Development Act 2000 (as amended)

Reference No. ED/1067.

Name Of Applicant(s):	Thomas King.
Address Of Development:	19 Emily Square, Athy, Co. Kildare.
Development Description:	Refurbishment of existing house.
Due date	13/10/2023.

Introduction

This is a request for a **DECLARATION** under Section 5(1) of the Planning and Development Act 2000 (as amended) to establish whether under Section 5 of the Act the works to refurbish and bring back into use a derelict house can be considered to be exempted development.

Site Location

19 Emily Square, Athy, Co. Kildare

Description of Proposed Development

The proposed development is located in the centre of Athy town, opposite Athy Heritage Centre on Emily Square. the existing two storey terraced house is vacant and derelict. The house adjoins a commercial premises to the north and a residential building to the south, both of which are protected structures. The subject house is not a protected structure although it is listed on the National Inventory of Architectural Heritage (Reg No: 11505325). The site is located within an Architectural Conservation Area and a zone of archaeological interest.

Planning History

03/300035 - Permission granted to Tom King for 2 retail units, kitchen extension to Chinese Restaurant and 7 apartments to the rear of 19, Emily Square.
This application does not appear to have been enacted.

Relevant Legislative Background

Planning and Development Act 2000 (as amended)

Section 2(1)

'works' includes any act or operation of construction, excavation, demolition, extension, alteration, repair or renewal and, in relation to a protected structure or proposed protected structure, includes any act or operation involving the application or removal of plaster, paint, wallpaper, tiles or other material to or from the surfaces of the interior or exterior of a structure.

Section 3(1)

In this Act, 'development' means, except where the context otherwise requires, the carrying out of any works on, in, over or under land or the making of any material change in the use of any structures or other land.

Section 4(1)

The following shall be exempted development for the purposes of the Act-

(h) development consisting of the carrying out of works for the maintenance, improvement or other alteration of any structure, being works which affect only the interior of the structure or which do not materially affect the external appearance of the structure so as to render the appearance inconsistent with the character of the structure or of neighbouring structures;

Section 5(7) EIA Screening

The proposed development is not specified in Part 2 of Schedule 5 of the Planning and Development Regulations 2001(as amended). In any event, it is considered, having regard to nature, size and location, the proposed development would not be likely to have significant effects on the environment. Therefore, EIA is not required.

Section 82.(1)

[Notwithstanding paragraph (a), (h), (i), (ia), (j), (k) or (l) of section 4(1), or any regulations made under section 4(2),] the carrying out of works to the exterior of a structure located in an architectural conservation area shall be exempted development only if those works would not materially affect the character of the area.

Planning and Development Regulations 2001 (as amended)

Article 6(1)

Subject to article 9, development of a class specified in column 1 of Part 1 of Schedule 2 shall be exempted development for the purposes of the Act, provided that such development complies with the conditions and limitations specified in column 2 of the said Part 1 opposite the mention of that class in the said column 1.

Article 9 (1)(a)(i)

Restrictions on exemption.

9. (1) Development to which article 6 relates shall not be exempted development for the purposes of the Act—

(a) if the carrying out of such development would—.....(15 items)

(xii) further to the provisions of section 82 of the Act, consist of or comprise the carrying out of works to the exterior of a structure, where the structure concerned is located within an architectural conservation area or an area specified as an architectural conservation area in a development plan for the area or, pending the variation of a development plan or the making of a new development plan, in the draft variation of the development plan or the draft development plan and the development would materially affect the character of the area

Assessment

A detailed list of the proposed works has been included with the application. The works consist of the comprehensive renovation of the existing house, including; new plumbing and electrics, insulation, window and door replacement, and roof and plaster repair.

It is proposed to retain the existing connections to water and waste water, and it is stated that the existing sash windows will be replaced with new sash windows. It is further stated that no site preparation works, demolition, or other groundwork will be carried out.

The replacement of existing asbestos roof to the rear and the repair of damaged back wall are considered to constitute 'works' as defined by Section 2 and 'development' as defined by Section 3 of the Planning and Development Act 2000 (as amended).

The works are required for the improvement and habitation of the structure, which affect the exterior of the structure. Having regard to the appearance of the structure and the proposed works which merely seek to repair and maintain the existing structure, it is considered that these works do not materially affect the external appearance of the structure so as to render the appearance inconsistent with the character of the structure or of neighbouring structures. It is further considered that the proposed works would not materially affect the character of the area. These works are therefore considered to be exempted development in accordance with Section 4(1)(h) of the Planning and Development Act 2000 (as amended), with the exception of the front windows and doors which would be dependent on the detailed design of same.

Conclusion

Having regard to:

- Sections 2, 3, 4, 5, and 82 of the Planning and Development Act 2000 (as amended);
- Articles 6 and 9 of the Planning and Development Regulations 2001 (as amended); and
- The nature, extent and purpose of the works;

it is considered that the proposed works **constitutes development** as defined in Section 3(1) of the Planning and Development Act 2000 (as amended) and **is exempted development** as defined by the Planning and Development Act 2000 (as amended) and the Planning and Development Regulations 2001 (as amended), with the exception of the front windows and doors.

Recommendation

It is recommended that the applicant be advised that the development as described in the application is development and is exempted development, with the exception of the front windows and door which would be dependent on design and materials which have not been specified sufficiently to be deemed exempt.
