Assessment

EIA and AA Screening [Refer to Appendix 1]
The proposed development is not specified in Part 2 of Schedule 5 of the Planning and Development Regulations 2001(as amended). In any event, it is considered, having regard to nature, size and location, the proposed development would not be likely to have significant effects on the environment. Therefore, EIA and AA Screening is not required.

Question 1 - Is it development?

The first question to address is whether or not:

Construction of a 40m wide, 60m long horse arena, constructed of sub-base on level ground with kickboards, 1.4m post and rail fencing and 3600mm wide gate (no access from any public road, the arena will be in the middle of a field surrounded by other fields)

would constitute development in accordance with the provisions of the Planning and Development Act, 2000 (as amended). Having regard to elements including **construction** and **excavation,** the Construction of a 40m wide, 60m long horse arena, constructed of sub-base on level ground with kickboards, 1.4m post and rail fencing and 3600mm wide gate (no access from any public road, the arena will be in the middle of a field surrounded by other fields) is deemed to be **works** under section 2(1) of the Act. The carrying out of works are therefore **deemed to be development** under Section 3(1) of the Act.

Question 2 - Is it or is it not exempted development?

Is the development of:

Construction of a 40m wide, 60m long horse arena, constructed of sub-base on level ground with kickboards, 1.4m post and rail fencing and 3600mm wide gate (no access from any public road, the arena will be in the middle of a field surrounded by other fields)

exempted development?

1. **Primary Legislation:** The development has been assessed under the Primary Legislation and it is deemed that there are no exemptions for this type of development under Section 4 of the Planning and Development Act, 2000, as amended.

2. **Secondary Legislation:** The development has been assessed under the Secondary Legislation, and the following sections are relevant:

    a. under *Class 10 of Part 3 of Schedule 2 of the Planning and Development Regulations 2001 (as amended),* the erection of an unroofed fenced area for the exercising or training of horses or ponies, together with a drainage bed or soft surface material to provide an all-weather surface is exempted development subject to conditions and limitations. The development for which the Declaration has been sought has been assessed against these:

        1. No such structure shall be used for any purpose other than the exercising or training of horses or ponies.

            The Application form states that the arena *'shall not be used for any other purpose than the exercising or training of horses or ponies'.* **This condition / limitation is met.**

        2. No such area shall be used for the staging of public events.
