I am a River Forest resident

I do not approve of a footpath/bicycle path going in the centre of the River Forest green, the children have that area to play games, I do not approve of high rise building, make the houses affordable for young people to buy if you intend building, I do not approve of the GAA complex being moved away from where it is situated at the moment as the children and adults are within walking distance to it, Catherine park should not be interfered with as it is the most beautiful park to walk through, make the playground bigger for the children to play in Catherine park,
