I am ■, born and raised in Confey as was my father ■ and his father. This is my home, my 2 daughters home. All the plans look so good on paper but then paper will never refuse ink, I built my home nearly 20 years ago and had to arrange my own puro flow system as there is no sewage in the Confey area not to mention the antiquated water lines. I'm all for progress but Confey is not the right area for this development, traffic is a nightmare as it is on Cope Bridge, can't get in or out of my house at certain times of the morning and evening so how is widening the bridge going to make this better, it would be crazy. I hope you come out and visit where we are and see my concerns.
