The protection of St. Catherines Park needs to be reinstated. No road through the park should be part of any proposal or strategy for the Leixlip Area. A new proposal needs to be found. This is an amazing amenity that serves Leixlip, Lucan, Dunboyne and Clonee and it would be destroyed if the road proposal through the park goes ahead. There was a previous protection in place for the park and there is no justification for its removal in the plan.
