I note that you have postponed any action on building a road through St. Catherine's park until 2025. I wish to note a long term objection to any road through or over the park. My home backs onto the park and would be directly impacted by any such plan. I also ask that you consider that a large number of residents, myself included, commute to Maynooth and into town via the back roads behind Confey. Access in both directions should be maintained at all times during any redevelopment.
