

Section on Craddockstown in the Draft minutes

NS09/1022

Part 8 Report for Craddockstown Road

The members considered the Chief Executive's Part 8 Report for Craddockstown Road, Naas Cycle Track Scheme.

A copy of the report had previously been circulated to members for their consideration.

The members made the following points:

- A request from residents for an additional meeting with the Council
- Can mature trees be put down where the poplar trees were previously removed
- There is not enough space for emergency vehicles to get through
- Can works be carried out from 9.30am as opposed to 9.00am when schools start to avoid disruption

The district manager advised the following:

- No additional meeting with the public
- Can put mature trees down where old trees were removed
- There is no compulsive purchase order (CPO) and no agreement with landowners
- The council will examine space for emergency vehicles
- The council will liaise with the schools about starting times

Resolved on the proposal of Councillor Clear, seconded by Councillor Kenny and agreed by the members that the Part 8 Report for Craddockstown Road, Naas Cycle Track Scheme be approved.
