

## Staggered Signalised Crossing.

### General Notes:

- All services to be kept clear of crossing where possible.
- All guard rails to be painted white/yellow, top and sides.
- Refer to dished kerb details.
- Refer to traffic signal details.

### Staggered Signalised Crossing

- Give positive signal control to both pedestrians and drivers and are generally used in the following circumstances:
  - Where the carriageway is wider than 10m.
  - When crossing at dual carriageways.
  - Where traffic volumes are high.
  - Where pedestrian volumes are high.
