

To the Chair and Each Member of the
Transportation Safety and Emergency Services
Strategic Policy Committee

August 30th, 2017

Dear Chair and Members,

A meeting of the Transportation Safety and Emergency Services Strategic Policy Committee has been arranged for **Thursday 14 September 2017** in the Committee Room on Level 2 at Áras Chill Dara, Devoy Park, Naas commencing at **2.30 p.m.**

AGENDA

1. To approve minutes of meeting held on 04 May 2017

The minutes of the meeting held on the 4th of May 2017 were approved

2. Matters Arising

3. Update from Director of Services

4. Road Safety and Cycling Forum Update

5. European Mobility Week: September 16th -22nd, 2017

6. Fire Service Operations Policy: Celina Barrett, Chief Fire Officer

7. Overview of Sallins By-Pass Project: David O’Grady, A/Senior Engineer, National Road Design Office
8. Referral from the Kildare/Newbridge MD (Cllr. Joanne Pender) for consideration by the SPC:

“That the Kildare/Newbridge Municipal District includes the raw data as standard on all summary analyses, within reason, where reports have been sought by members which includes numerical data that has been collected, manipulated and summarised for simplicity and is presented to the members for their consideration’

Response from the Roads, Transportation and Public Safety Department (May 2017):

Raw data, collected as part of traffic surveys and counts and other data collected as part of the ongoing work within the Roads, Transportation and Public Safety Department (i.e., road construction levels, bridge structural calculations, CCTV-generated data etc) requires a level of data cleansing prior to analysis and the calculation of summary information. The release of raw data to a non-technical audience would generate a level of queries, questions, verbal and written explanations, and would create an onerous burden on the Department’s current limited resources.

Evelyn Wright
Senior Executive Officer
Roads Transportation and Public Safety Department
