That the expensive street and road modification policies to reduce motorised traffic in Town Centre, Naas by the Kildare Sustainable Travel Programme be abandoned, and that financial investment be made to provide a townwide public bus service to reduce the presently necessary short-journey-car-travel to the rail station, local work stations, town centre, schools, hospital, bus terminals, social destinations and criss-crossing travel around a wide-footprinted town, in tandem with the procuring of a series of circular-sited open car parks on incoming regional roads to facilitate outside town parking and such a town bus-service.

That the council reminds estate agents operating in Naas of their obligations to remove advertising boards in a timely fashion and within the time regulations once a transaction is concluded, as this is often not the case, particularly with regard to apartment block complexes.
