11. Motion – Councillor Bill Clear

That the council consult with the National Transport Authority (NTA) to request a review of bus stop locations along the Newbridge Road in Naas. Now that Minister Browne has letter requested Kildare County Council to collaborate with the State on the, yet to be detailed, Huge Housing Programme for Naas and Kildare, by zoning more land for Residential Development, will our Planning Executive in its reply, be identifying the existing threats of shortages of freshwater and electricity supplies in Kildare and the inability of our Local Authority's income funding to continue to provide the huge and significant requirements of matching social infrastructure, essential facilities, sporting lands and amenities, community development and the very costly installation of services infrastructure that it has previously undertaken from local funding in achieving its double growth in population numbers since 1990 and

declare, that it now lacks the financial capacity to provide these matching requirements for any additional residential zonings, beyond the current zonings in the Naas LAP of 2021-2027, without obtaining a guarantee of serious Government financial support to offset these huge challenges to prevent the de-stabilizing of the town's existing community infrastructure?
