Aeráid, Comhphobal, Timpeallacht agus Uisce
Climate, Community, Environment and Water (5:05 p.m.)

30. Motion – Councillor Seamie Moore

That members would agree that Kildare County Council should take immediate action and prioritise a Grant Application to Government or wherever, to provide finance for the provision of a minimum of 25 hectares of community and amenity land for the present dire need and future expansion of a wide range of sporting needs in Naas, as

i) population growth to 30,000 has far outpaced the ability of local clubs and groups to provide a continuation of provision from their own resources

ii) some clubs and exceptionally talented players, like basketball, volleyball & badminton, must travel to Dublin and elsewhere for facilities to train and play their fixtures.

iii) successful local soccer teams cannot upgrade to higher competition levels from existing junior grades, because their local clubs lack pitches, facilities and even the most basic of changing rooms and toilets.

iv) healthy, sporting lifestyles, highly promoted, following Irish successes at the recent Olympic Games, are being denied to thousands of youth in Naas because a lack of municipal support and investment in sport.

v) Kildare County Council has utterly failed to provide any sporting lands or facilities to the expanded Naas Town population since 2014 when it assumed such responsibilities from Naas Town Council, who had previously provided the existing Monread Park, Lacken Pitch, Naas Swimming Pool and Naas Sports Centre, up to forty years ago.

vi) Elected members have worked with officials to provide a huge expansion of houses for the needs of Ireland and the Irish Government but the reciprocated balance of municipal playing facilities has never materialised.

vii) A joint Government and Local Authority financial provision must now be made to purchase sporting lands in Naas, as it is expected that elected members will be requested to zone more lands for further town population expansions in the short, medium and long terms.
