

Get More from Your Smartphone or Tablet

Your smartphone or tablet has settings that can make text and icons easier to see, improve sound and help with everyday tasks. You can change these settings at any time to find what works best for you.

Make text easier to read

- ✓ Increase text size
- ✓ Make icons larger
- ✓ Use Display Zoom or Magnification to make the whole screen larger
- ✓ Increase screen brightness

Adjust the display

- ✓ Try Dark Mode
- ✓ Increase contrast
- ✓ Adjust the screen colours if they are hard to see
- ✓ Reduce moving effects or other screen distractions

Make sound easier to hear

- ✓ Increase call and media volume
- ✓ Adjust notification sounds
- ✓ Turn on captions for videos
- ✓ Connect compatible hearing aids to your device

Use your voice

- ✓ Make calls or send messages
- ✓ Set reminders
- ✓ Dictate instead of typing
- ✓ Ask your device to read text aloud

TOP TIP: Start with the one setting that would help you most.

Open  Settings and tap the search box.

Search for Text Size, Accessibility, Display, Sound or Captions.

Find Help for Your Device

Menu names and settings may look different on each device. The official Apple and Android support pages below give step-by-step guidance. You can type the web address into your internet browser or ask someone you trust to help you open the page.

Apple devices

Accessibility help for iPhone and iPad

Apple accessibility help: support.apple.com/accessibility

Android devices

Accessibility help for Android phones and tablets

Android accessibility help: support.google.com/accessibility/android

SETTINGS I'D LIKE TO TRY

☐ Text size

☐ Display
